

BEST DRESSED

Furniture Makeover

Add some serious style to a favorite storage piece by pairing bright pops of happy hues with the beauty of natural wood.

You'll Need:

Dutch Boy® Cabinet, Door & Trim paint (2 colors)	Tape measure
Wood dresser	Pencil
Angled paintbrush	Thumbtack
Paint tray and liners	Screwdriver
Fine- to medium-grit sandpaper	String
	Clean, damp cloth

Here's How:

-
- Step 1** Prep furniture by removing all hardware and sanding any rough areas; wipe with clean, damp cloth to remove dust or debris.
- Step 2** Determine first circle position on the furniture and lightly mark the center point with the pencil; from the central point, measure outward to determine the radius and cut a piece of string the same length.
- Step 3** Tie one end of the string tightly around the pencil and secure the other end to the middle point of the circle with the thumbtack.
- Step 4** Keeping string taut, lightly draw a circle by moving pencil clockwise until the circle is complete.
- Step 5** Repeat steps 2 through 4 to create second circle; for two different-size circles, use two different-size strings.
- Step 6** Using the angled brush, carefully paint freehand along the inside edge of the circle; once circle is outlined, paint remainder.
Optional: Apply a second coat of paint for added coverage.
- Step 7** Allow paint to dry, following suggested drying time on the can label.
- Step 8** Reattach hardware.
