

OPEN NEW DOORS

Painted Door Edges

Place a pop of vibrant, eye-catching color where it's least expected — on the edge of a much-used door.

You'll Need:

Dutch Boy® Cabinet, Door & Trim paint	Screwdriver
Mini woven roller cover and roller frame	Fine- to medium-grit sandpaper
Mini trays	Drop cloth
Painter's tape	Clean, damp cloth

Here's How:

-
- Step 1** Remove door hardware; use the sandpaper to sand any rough or glossy surfaces on the door edge; wipe with clean, damp cloth to remove dust or debris.
- Step 2** Lay down the drop cloth to protect floors.
- Step 3** Affix painter's tape on the front and back of the door, along the edge.
- Step 4** Using the mini woven roller, paint accent color along the side and top edges of the door.
Optional: Apply a second coat of paint for added coverage.
- Step 5** Remove the painter's tape while the paint is still damp; allow paint to dry, following suggested drying time on the can label.
- Step 6** Reattach door hardware.
